UltraCase Twin

15.0" - 15.4"

Maximum security for 15.4" Notebooks and printer - thanks to shock-absorbing Permanent Air Cells

The safety briefcase UltraCase Twin from DICOTA is equipped with the patented, extremely robust Permanent Air Cells system (PAC), thus offering reliable safety for your Notebook from all 6 sides. The flexible air cells (PAC) automatically adjust to the height of the Notebook. Knocks and blows are perfectly absorbed, additionally protecting corners and edges.

The padded all-purpose compartment has room for printer, beamer or documents. Further storage space is given by the document compartment which is divided into two pockets - one on the front and one on the inside. Mobile equipment (cell phone, business cards, pens and such) can be stashed in the workstation or in numerous other pockets. The supplied cable bag holds power supplies and cables. The especially soft, double-riveted carry handle turns transport into a comfortable pleasure! Further carrying options are provided by the shoulder strap and the fastening strap for trolleys.

Additional bonus: UltraCase Twin is manufactured from endurable, water-repellent 2520 D Nylon.

Lockable Notebook compartment with PAC-padding - extremely high safety from all 6 sides. robust synthetic frame. padded all-purpose compartment for printer, beamer or documents. workstation for mobile equipment. twofold document compartment with zipper on the back. numerous pockets. fastening strap for trolleys. double-riveted, comfortable carry handle. shoulder strap. transparent cable bag. endurable, water-repellent 2520 D Nylon.
